

LOCATION

The Taaras Beach & Spa Resort is located off the north east coast of Malaysia on Redang Island. Situated in the South China Sea, Redang is the largest island - 6km by 7km - of the Redang archipelago. The island is surrounded by crystal clear waters and home to numerous dive sites and abundant marine life. The coral collection is generally excellent all year round, but can be influenced periodically by weather and sea conditions. The waters surrounding Redang offer designated conservation sites including a protected marine park and turtle sanctuary.
